

Keysight Technologies

VEE Pro 9.32

Data Sheet

Keysight's software products make you more productive, so you can focus on solving engineering problems, not on programming. Keysight VEE is a powerful intuitive graphical language environment that provides you the quick and easy path to measurement analysis.

Keysight VEE 9.32 Features

- New sample programs for the Keysight Technologies, Inc. 33500 series function/arbitrary waveform generator, 34411A digital multimeter and DSO/MSO oscilloscopes
- General vTools and USB Modular DAQ vTools
- Windows 8 operating system supportability
- Microsoft Office Excel 2013 supportability
- Multithreading and multicore programming support
- SCPI completion
- Private UserFunction
- LXI support
- Conditional breakpoints and breakpoints window
- Error call stack
- Integrated database support
- Supporting custom menu in XML format
- Enhanced default preferences dialog box
- NaN and Infinity support
- Toolbars for VEE objects
- More Windows standard dialog boxes

For Faster Programming

Keysight VEE (Visual Engineering Environment) is an easy-to-use graphical language environment that provides a quick path to measurement and analysis.

- Select and edit objects from pull-down menus or toolbars and connect them to each other by wires to specify the program's flow, mimicking the order of tasks you want to perform.
- Illustrate objects and connections between them with color coding for easy program differentiation.
- Create programs easier and faster with SCPI completion, code completion and code insight.
- Debug programs on the fly and quickly test and update codes with Conditional Breakpoints, Watch Window and Output Window.
- Improve your system performance with multithreading technology and multicore programming.

Keysight VEE can be used as a standalone solution or as part of a custom in-house solution, and includes all the capabilities and support you need to be successful.

Test and Measure Efficiently

Keysight VEE verifies instrument addresses and other parameters at runtime and allows users to change these parameters without reconfiguring programs. The software handles different data types automatically, providing automatic conversion and data handling capabilities with minimal complex programming.

Generate optimized codes with Keysight VEE's compiler, and further enhance those codes with the built-in Profiler. The Profiler analyzes critical sections of code to save development time when fine-tuning the programs.

Keysight VEE Pro comes standard with a RunTime execution engine that provides the ability to distribute run-only Keysight VEE Pro applications at no additional cost. The users are allowed to redistribute the RunTime installer.

A Better User Experience

Designed for engineers and scientists who need to quickly create and automate measurements and tests, Keysight VEE comes with features that help users do their job faster and more effectively.

The Modern Integrated Development Environment with dockable tool windows gives users a more modern and streamlined programming experience, while numerous sample programs, demos and context-sensitive help provide support for beginner and veteran programmers alike.

Keysight VEE now includes new sample programs with simple VEE programming for the latest Keysight instruments – the Keysight 33500 series arbitrary/function generator, Keysight 34411A digital multimeter and InfiniiVision 2000X/3000X/5000/6000/7000 series DSO or MSO oscilloscopes.

Simplify your programming with vTools

There are two available vTools: General vTools and USB Modular DAQ vTools.

General vTools offers an easy-to-use interface for data analysis, including support for simple trending data analysis, statistical filters, alert and events, data scaling and data charting and graphing. It contains enhanced reporting graph objects with panning, scroll zoom, graphic saving features and printing capabilities. General vTools also supports objects and components such as averaging and marker lookup.

Enhanced reporting graph

Sample programs from USB Modular DAQ vTools help you understand how to set up channel settings and poll data.

Download vTools for free at www.keysight.com/find/vee_download

Software and Hardware Compatibility

Keysight VEE interfaces with popular software and hardware tools, and provides easy, menu-driven control of database. Keysight VEE uses the .NET Framework and ActiveX to simplify common tasks, and supports industry standard instrument drivers, including IVI-COM and VXIplug&play. Users may also use SCPI or the .dll library supplied with many instruments.

Keysight VEE Pro supports all popular programming languages, including Visual Basic, C/C++, Visual C# and all.NET compliant languages.

Keysight VEE Pro supports various instruments and data acquisition devices, and works with surface-mount machines, robots and other manufacturing equipment via the .NET Framework or supplied ActiveX libraries. The .Net Framework (Common Language Runtime and Framework Class Libraries) is installed with Keysight VEE Pro, so it is instantly available.

Keysight VEE Pro can communicate with any instrument from any vendor using GPIB, LAN, USB, RS-232, VXI and LXI, and controls most standard instruments' plug-in cards with an instrument driver, a vendor-supplied DLL or with Keysight VEE Pro's direct IO capability.

Powerful Features for Increased Productivity

MATLAB Script and the MathWorks Signal Processing Toolbox are embedded in Keysight VEE Pro at no additional cost, and come with 1800 MATLAB functions, more than 1000 of the most popular MATLAB analysis and visualization functions preprogrammed as one-click objects.

Built-in MATLAB functions include:

- Numeric computation
- Engineering and scientific graphics (2D, 3D, waterfall, bar, pie)
- Signal processing
- Arrays and matrix math.

Evaluate Keysight VEE Pro

Test a trial version of Keysight VEE Pro and see its benefits for yourself. Download a free, fully functional 30-day evaluation copy, or request a CD to be shipped to you.

For more information, visit www.keysight.com/find/vee_download

A Complete Solution

There is no need to buy expensive add ons to get the full set of Keysight functionality. Keysight VEE includes all the capabilities and support you need to be successful, including:

- Built-in MATLAB Script and Signal Processing Toolbox
- Menu-driven control of Excel and databases
- Support for Microsoft .NET Framework
- Unlimited RunTime distribution of your Keysight VEE Pro applications
- Localized documentation

Minimum System Requirements for Keysight VEE Pro 9.32

Prior to installing Keysight VEE Pro 9.32, Keysight VEE Student, and Keysight VEE Runtime, ensure that your PC meets the following minimum system requirements for installation and operation.

System Requirements		
Operating System	Microsoft Windows XP SP3 or higher	Microsoft Windows 8 (Professional, Enterprise), Microsoft Windows 7 SP1 (Professional, Ultimate, Enterprise), Microsoft Windows Vista SP1 (Business, Ultimate, Enterprise), or higher
Architecture	x86 (32-bit), 64-bit for Windows 7 and Windows 8 supportability ¹	
Processor	450 MHz Pentium II or higher required (800 MHz recommended)	1 GHz required (2 GHz recommended)
Minimum RAM	128 MB minimum (256 MB or higher recommended)	1 GB minimum (2 GB recommended)
Minimum disk space	700 MB hard disk free space	
Video	Super VGA (800x600) display or higher resolution monitor with 256 colors or more	Support for DirectX 9 graphics with 128 MB graphics memory recommended (Super VGA graphics is supported)
Browser	Microsoft Internet Explorer 6.0 or higher	Microsoft Internet Explorer 7 or higher
Pre-requisite		
Microsoft Office 2003, 2007, 2010, or 2013 (If using Office products with Keysight VEE Pro or Keysight VEE Student)		
Keysight IO Libraries Suite 16.3.16603.3 or higher (This is only needed when you communicate with instruments using Keysight VEE)		
Microsoft .NET Framework 3.5 SP1 ²		
Connectivity options for instrumentation		
Keysight 82357B USB/GPIB Interface		
Keysight E5810A LAN/GPIB Gateway		
Keysight E5810B LAN/GPIB/USB Gateway		
Keysight 82350B PCI High-Performance GPIB Interface Card		
USB connecting directly to instruments supporting the USB/TMC protocol		
Standard RS-232		
LAN connect to instruments supporting the VXI-11 protocol		
National Instruments I/O hardware using NI 488 version 1.5 (or higher) ³		
National Instruments I/O hardware using NI VISA version 3.0 (or higher) ³		

1. 32-bit application running on WOW64 (Windows-on-Windows) emulator.

2. Microsoft .NET Framework 3.5 SP1 is not included in Windows 8. The Keysight VEE installation package will prompt you to download and install Microsoft .NET Framework 3.5 SP1 from the Internet. Please refer to <http://msdn.microsoft.com/en-us/library/hh506443.aspx> for more information.

3. Keysight VEE no longer provides official NI supportability. However, the NI interface is still available.

*2 - Keysight USB only

*4 - Support only when MATLAB is installed on your machine

Keysight VEE Education 9.32 has all the features of Keysight VEE Pro 9.32 and comes packaged with 10 standalone licenses. Keysight VEE 9.32 does not come with an express version.

Ordering Information

Note: All products listed below are structured as options under the W4000D product number.

Core product	Notes
Keysight VEE Pro 9.32 Software (W4000D-1TP)	Includes the full feature of Keysight VEE Pro 9.32 CD and Quick Start Guide (6 languages)
Keysight VEE Pro 9.32 Student Software (W4000D-2TP) (for students only)	Includes the full feature of Keysight VEE Student 9.32 CD and Quick Start Guide (6 languages)
Keysight VEE Pro Education 9.32 (W4000D-3TP) (for education customers only)	Includes 10 licenses of Keysight VEE Pro 9.32 and Quick Start Guide (6 languages)
Upgrade licenses	Notes
Upgrade from Keysight VEE Pro 8.5 to Keysight VEE Pro 9.32 (W4000D-5TP)	Includes CD and Quick Start Guide (6 languages)
Upgrade from Keysight VEE Pro 8.0 to Keysight VEE Pro 9.32 (W4000D-6TP)	Includes CD and Quick Start Guide (6 languages)
Upgrade from Keysight VEE Pro 7.5 & below to Keysight VEE Pro 9.32 (W4000D-7TP)	Includes CD and Quick Start Guide (6 languages)
Upgrade from Keysight VEE Express to Keysight VEE Pro 9.32 (W4000D-8TP)	Includes CD and Quick Start Guide (6 languages)
Additional options	Notes
Keysight VEE Education 9.32 10-license option (W4000D-4TP)	Includes Software Entitlement Certificate to add on 10 licenses to VEE Education 9.32 (W4000D-3TP)
*No Documentation/Education Package (W4000D-0B0)	Includes Software Entitlement Certificate only/Basic Education package only (default for W4000D-2TP and W4000D-4TP)
