ESA 8566/68B Programming Code Compatibility (Option 266)

The A.02.11 8566/68B Programming Code Compatibility software can be obtained using one of the following two methods:

1. You can download the upgrade from this site for free to a Microsoft Windows based Personal Computer.
2. You can purchase an E440xBU-266 upgrade kit.

Note: This 8566/68B Programming Code Compatibility software is only for use with ESA-E Series Spectrum Analyzers with firmware version A.14.00 or newer.

The "**ESA Personality Installation Procedure**" will guide you through:

- Downloading the installation image
- Creating an installation floppy disk set
- Loading the software into your ESA
- Verifying the installation

Current Version   Previous Versions
