ESA Phase Noise Measurement Personality (Option 226)

The B.01.31 Phase Noise Measurement Utility can be obtained using one of the following two methods:

- If you already have a license for this personality you can download the latest version from this site for free to a Microsoft Windows based Personal Computer.
- If you do not have a license for this personality you will need to order an E440xBU-226 upgrade kit.

Note: This Phase Noise Measurement Utility version is only for use with ESA-E Series Spectrum Analyzers with **Option B72** (expanded memory). If you do not have Option B72 the latest version that can be installed is **A.01.15** available below. only for use with ESA-E Series Spectrum Analyzers with firmware version A.07.03 or newer.

The "**ESA Personality Installation Procedure**" will guide you through:

- Downloading the installation image
- Creating an installation floppy disk set
- Loading the software into your ESA
- Verifying the installation

Current Version   Previous Versions
