

# Keysight in Santa Rosa, CA

Today's world runs on electronics. From smart phones to internet access, our lives are increasingly defined by anytime, anyplace connectivity. For more than 75 years, Keysight Technologies has been the world's premier provider of measurement equipment for the electronics industry. We are the test solutions partner to engineers, scientists and service providers worldwide in every phase of the electronic product lifecycle – from research to manufacturing, installation, and maintenance.

## New Vision, New Experience

These are exciting times for Keysight.

If you've ever used a cell phone, ridden on a plane, or been protected from a terrorist threat – whether you know it or not – almost certainly those products were tested by one of our electronic measurement instruments somewhere in the process.

Our goal at the Santa Rosa Site is to fill Keysight positions with top college graduates who will challenge us to create new solutions for customers and take us to the next stage of success.

Guy Sene

Senior Vice President, Keysight Technologies
