

CLICK HERE TO GET
10% OFF
Available from August 31
to November 28, 2014*

Now you can build your bench for less.

Get a 10% discount on select digital multimeters and power supplies or a power analyzer.

Act now to take advantage of this limited time offer.*

Have you delayed purchasing a digital multimeter, power supply, or power analyzer because of budget limitations? Now you can buy these select Tektronix/Keithley instruments at a 10% discount.

But, don't delay any longer. This limited time offer is only available from August 31 through November 28, 2014.

Digital Multimeters and Integrated Switch/Multimeter Systems – From 5½- to 8½-digit bench multimeters to integrated switch and multimeter systems capable of switching and measuring up to 576 channels, we have the right solution to meet any application.

Power Supplies – Our power supplies offer setting and readback resolution and accuracy higher than competitive supplies, including up to 6½-digit resolution and sensitivity down to 10nA on high performance models.

Power Analyzer – The Tektronix PA1000 Power Analyzer is a high accuracy, one-instrument solution for characterizing power conversion performance and efficiency on power supplies and all types of products connected to the AC line.

***Discount Program Guidelines:**

- This discount can be combined with any existing customer discounts/contract/VBAs, as well as GSA customers.
- This offer cannot be combined with any other Tektronix promotion or program, except the Education 15% Program.
- This program applies only to new instruments.
- TekSelect, demo, and used instruments are excluded.
- Product options, software and accessories not listed here are not included.
- Tektronix reserves the right to change or cancel this program at any time.
- Purchase order must be placed and accepted between August 31, 2014 and November 28, 2014 and is only valid in the United States and Canada.
- You must accept delivery of your product within 6 weeks after the end of the sales promotion.
