MX Soldering Tips "Works With MX Soldering Stations"-- EasyBraid! Great Cost Savings!

"SIMILAR TO METCAL®" CARTRIDGE TIPS

Finally, you have a real cost savings alternative from EasyBraid who has introduced their new, wide variety line of soldering tips announcing that it is "similar to Metcal®" and that "works with MX soldering stations". And check out their new, helpful color-coded temperature rings on the cartridge making it easier to determine what temp series you are using! And the tip cartridges are lead-free and RoHS Compliant.

Here's the New Line of Heater Tip Cartridges Featuring Color-Coded Temperature Bands From EasyBraid Announcing that "Works With MX Soldering Stations" Blue: 600° Series, Yellow: 700° Series, Red: 800° Series

And EasyBraid tells Ameritronics® that their "premium plating results in longer service life and cost savings," provides "better connectivity through the use of gold plated connectors" and "faster point to point soldering" with "stable tip temperature." Great news! Great savings!

1 Lb. Spools of No Clean Flux Cored Solder Wire

Classic Tin / Lead Alloy or RoHS Lead-Free Alloy
