   I think I can help with that, Jared. ;-)

https://ln5.sync.com/dl/4c26d9a50/yec8iex9-n972d668-h4puu6tm-r8kxxqsu

   I'll leave the file up for at least a week, in case others want it.

   Happy tweaking.

Thanks! But it tells me that the daily download limit has been reached. Is there another way I can get the files from you?

Thanks,
Jared

    I'll follow an earlier suggestion, and upload it to TekWiki. ;-)

You could also upload it to the files section here.

Regards,
Jared

Ok, Thanks to Bruce, I now have all the Field Adjustment software I'll ever need. :)
I'll add them to TekWiki soon.

If anyone has any other software that was available for these scopes (like 063-1134-00 Programming Exam Disk, etc etc)
Or any Application Software Packages (TDSPWR1, TDSJIT1V2, TDSCEM1, TDSCPM1 etc etc) Send them through to
go up on Tekwiki! :)

Also, firmware too, I'm pulling all the firmware I come across out via GPIB to put up on TekWiki as well, it's really easy if
you follow this guide:
https://www.eevblog.com/forum/repair/unified-tektool-released-!-(firmware-flash-tools-for-old-tds-series)/
msg3758918/#msg3758918

Does that include only official Tek softwares ?
If not these might be of interest:
